| Agree |
| This course consists of mainly theoretical content. The content level is satisfactory and the medium evaluating students is also good. This course contains important information for students who want to work in the investment/financial market sectors; therefor this course should not be blended or conducted online. Blended and online course do not allow for information retention, most students will not remember the course material after this semester. |
| these kinds of courses its nearly impossible to pass it if I attended online it should've on campus |
| Good |
